(Expressed in Canadian Dollars)

NOTICE OF NO AUDITOR REVIEW OF INTERIM FINANCIAL STATEMENTS

Under National Instrument 51-102, Part 4, subsection 4.3(3) (a), if an auditor has not performed a review of the interim financial statements, they must be accompanied by a notice indicating that the financial statements have not been reviewed by an auditor.

The accompanying unaudited condensed consolidated interim financial statements of MineHub Technologies Inc. (the "Company") have been prepared by and are the responsibility of the Company's management.

The Company's independent auditor has not performed a review of these financial statements in accordance with standards established by the Chartered Professional Accountants of Canada for a review of the condensed consolidated interim financial statements by an entity's auditor.

MINEHUB TECHNOLOGIES INC.

Notes to Condensed Consolidated Interim Financial Statements

For the three months ended April 30, 2022 and 2021

(Expressed in Canadian dollars)

1. Nature and continuance of operations

MineHub Technologies Inc. (the “Company”) was incorporated in the province of British Columbia on February 19, 2018. The Company is engaged in the development and operation of a block-chain technology platform for the mining industry. The Company’s registered and records office is 1008-550 Burrard Street, Vancouver, British Columbia, V6C 2B5. The Company’s head office is located at 717-1030 West Georgia Street, Vancouver, British Columbia, V6E 2Y3. On September 7, 2021, the Company’s common shares began trading on the TSX Venture Exchange (“TSX-V”) under the ticker MHUB and on the OTCQB under the ticker MHUBF.

These consolidated financial statements have been prepared on the assumption that the Company will continue as a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize assets and discharge liabilities in the ordinary course of operations. Different bases of measurement may be appropriate if the Company is not expected to continue operations for the foreseeable future. As at April 30, 2022, the Company has generated minimal revenues and has incurred losses since inception. The Company’s continuation as a going concern is dependent on its ability to generate future cash flows and/or obtain additional financing. These factors indicate the existence of a material uncertainty that may cast significant doubt about the Company’s ability to continue as a going concern. Management intends to finance operating costs over the next twelve months with cash on hand, loans from directors and companies controlled by directors and/or private placements of common stock. There is a risk that additional financing will not be available on a timely basis or on terms acceptable to the Company. These consolidated financial statements do not reflect any adjustments that may be necessary if the Company is unable to continue as a going concern, and such adjustments could be material.

Since March 2020, the outbreak of the novel strain of coronavirus, specifically identified as “COVID-19”, has resulted in governments worldwide enacting emergency measures to combat the spread of the virus. These measures, which include the implementation of travel bans, self-imposed quarantine periods and social distancing, have caused material disruption to businesses globally resulting in an economic slowdown. Governments and central banks have reacted with significant monetary and fiscal interventions designed to stabilize economic conditions. The duration and impact of the COVID-19 outbreak is unknown at this time, as is the efficacy of the government and central bank interventions. It is not possible to reliably estimate the length and severity of these developments.

These consolidated financial statements were authorized for issue by the Board of Directors on June 24, 2022.

2. Significant accounting policies

(a) Statement of compliance to International Financial Reporting Standards

These condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard (“IAS”) 34, Interim Financial Reporting, as issued by the International Accounting Standards Board (“IASB”). Accordingly, certain information and footnote disclosure normally included in annual financial statements prepared in accordance with International Financial Reporting Standards (“IFRS”) have been omitted or condensed, and therefore these condensed consolidated interim financial statements should be read in conjunction with the Company’s January 31, 2022 audited annual consolidated financial statements and the notes to such financial statements.

(b) Basis of preparation

The consolidated financial statements have been prepared on an accrual basis except for cash flow information and are based on historical costs modified where applicable. The consolidated financial statements are presented in Canadian dollars unless otherwise noted. The policies set out below were consistently applied to all periods presented unless otherwise noted.

MINEHUB TECHNOLOGIES INC.

Notes to Condensed Consolidated Interim Financial Statements

For the three months ended April 30, 2022 and 2021

(Expressed in Canadian dollars)

2. Significant accounting policies (continued)

(c) Use of estimates and assumptions

The preparation of consolidated financial statements in accordance with IFRS requires the Company to make estimates and assumptions concerning the future. The Company's management reviews these estimates and underlying assumptions on an ongoing basis, based on experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revisions to estimates are adjusted for prospectively in the period in which the estimates are revised.

Estimates and assumptions where there is significant risk of material adjustments to assets and liabilities in future accounting periods include fair value measurements for financial instruments, and the recoverability and measurement of deferred tax assets.

(d) Significant judgments

The preparation of consolidated financial statements in accordance with IFRS requires the Company to make judgments, apart from those involving estimates, in applying accounting policies. The most significant judgments applying to the Company's consolidated financial statements include:

- The assessment of the Company's ability to continue as a going concern and whether there are events or conditions that may give rise to significant uncertainty; and
- Whether the expenditures incurred on the development of the Company's platform meets the criteria for recognition as an intangible asset pursuant to IAS 38 *Intangible Assets*. The Company has determined that to date the Company's platform under development does not meet the capitalization criteria. Consequently, the expenditures incurred that are directly attributable to its development have been expensed.

(e) Basis of consolidation

These consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries, Minehub (USA) Inc. and Minehub Technologies Netherlands B.V. All inter-company balances and transactions have been eliminated upon consolidation.

3. Development costs

On December 18, 2018, the Company entered into an agreement with The International Business Machines Corporation to collaboratively develop a block-chain enabled platform solution to track and trace minerals from miners to end buyers. During the year ended January 31, 2022, the Company engaged IBM Netherland B.V. ("IBM") and other various vendors to continue in the development process of the platform. During the three months ended April 30, 2022, the Company incurred development costs of \$649,290 (2021 - \$492,784) (Note 5) with IBM.

4. Receivables

	April 30, 2022	January 31, 2022
Sales taxes recoverable	\$ 138,373	\$ 191,135

Accrued liabilities (Note 10)	270,378	127,472
	\$ 522,612	\$ 658,527

6. Short-term loans

(a) On December 19, 2018, the Company entered into a loan agreement to borrow an amount of US \$80,000 (\$107,200) to be used for working capital, repayable in two months, bearing 5% interest per annum on default and has a bonus payment of US \$8,000 (\$10,720) on settlement recorded in interest expense during the year ended January 31, 2020. On July 31, 2020, the Company entered into an agreement with the lender to transfer the principal amount, bonus payment and accrued interest into a convertible debenture in the amount of \$126,500 (Note 7(a)).

(b) On December 19, 2018, the Company entered into a loan agreement to borrow an amount of US \$275,000 (\$368,610) to be used for working capital, repayable in two months, bearing 5% interest per annum on default and has a bonus payment of US \$15,000 (\$20,100) on settlement recorded in interest expense during the year ended January 31, 2020. On July 31, 2020, the Company entered into an agreement with the lender to transfer the principal amount, bonus payment and accrued interest into a combined convertible debenture in the amount of \$416,730 (Note 7(a)).

(c) On June 18, 2019, the Company entered into a loan agreement to borrow an amount of \$250,000 to be used for working capital. The loan bore interest at 10% per annum and was repayable on or before March 31, 2022. During the three months ended April 30, 2022, the Company accrued \$Nil of interest (2021: \$7,659). On September 24, 2021, the Company repaid the loan and interest in full by paying \$306,712, resulting in a loss on debt settlement of \$14,300.

(d) On June 19, 2019, the Company entered into a loan agreement with a company related by common director and officer to borrow an amount of \$150,000 for a duration of 120 days. The loan bore interest at 10% per annum. On July 31, 2020, the loan was acquired by another lender and the Company entered into an agreement with the new lender to transfer the principal amount, bonus payment and accrued interest into a combined convertible debenture in the amount of \$166,800 (Note 7(a)).

(e) On July 22, 2019, the Company entered into a loan agreement with a company related by common director and officer to borrow an amount of \$35,000 for a duration of 120 days. The loan bore interest at 10% per annum. On July 31, 2020, the Company paid for the principal of the loan and accrued interest with 154,120 shares with fair value of \$38,530.

(f) In January 2020, the Company entered into a loan agreement to borrow an amount of \$75,000 to be used for working capital, repayable in two months, bearing 5% interest per annum and has a bonus payment of \$4,000 on settlement recorded in interest expense during the year ended January 31, 2020. On July 31, 2020, the Company entered into an agreement with the lender to transfer the principal amount, bonus payment and accrued interest into a combined convertible debenture in the amount of \$80,970 (Note 7(a)).

MINEHUB TECHNOLOGIES INC.

Notes to Condensed Consolidated Interim Financial Statements

For the three months ended April 30, 2022 and 2021

(Expressed in Canadian dollars)

6. Short-term loans (continued)

Details of movement of the short-term loans are as follows:

	April 30, 2022	January 31, 2022
Balance, beginning	\$ -	\$ 252,766
Loan repayments	-	(306,712)
Interest accrued	-	39,646
Loss on debt settlement	-	14,300
Balance, ending	\$ -	\$ -

7. Convertible debt

(a) On July 31, 2020, the Company entered into an agreement to combine four outstanding short-term loans into one convertible debenture with principal amount of \$791,000 (Note 6(a,b,d,f)). The convertible debenture matures in two years on July 31, 2022 and bears simple interest of 5% per annum. The lender has an option to convert all or a portion of the principal amount of \$664,500 and accrued interest into units of the Company at \$0.25 per unit and \$126,500 into common shares of the Company at \$0.25 per share. Each unit consists of one common share of the Company and one-half share purchase warrant entitling the holder to purchase one share of the Company at an exercise price of \$0.50 per share until July 31, 2023.

The convertible debenture is a compound financial instrument as it includes both a liability and equity components. On initial recognition, the Company determined the fair value of the liability component on the date of issue to be \$702,971. The fair value of the liability was determined by calculating the fair value of the future cash flows of the loan assuming a discount rate of 12%. The equity component of the debenture was determined to be \$88,029, which comprises of the principal value less the liability component.

Details of movement of the convertible promissory debentures are as follows:

	April 30, 2022	January 31, 2022
Balance, beginning	\$ 788,014	\$ 752,547
Loans amount converted or assigned (Notes 7 (c,d))	-	(40,000)
Accretion of convertible debenture	10,732	36,563
Interest accrued	9,232	38,904
Balance, ending	\$ 807,978	\$ 788,014

(b) On January 21, 2021, the Company entered into two convertible promissory note agreements to borrow an amount of \$500,000 each for total proceeds of \$1,000,000. Each convertible note matured in one year on January 21, 2022 and bears interest of 10% per annum. As the Company did not complete an Initial Public Offering (“IPO”) within the first six month from the agreement date, the interest increased to 15% per annum. In addition, the Company issued 199,200 units to the lenders as a result of the delayed IPO (Note 8). The lenders were required to convert a minimum of 25% of the outstanding principal amount and accrued interest into common shares of the Company at \$0.50 per share on the event of an IPO (occurred September 7, 2021). The lenders have an option to convert all or any portion of the remaining 75% of the outstanding principal and accrued interest into common shares of the Company at \$0.50 per share. Additionally, the Company issued 150,000 share purchase warrants to each lender for total 300,000 share purchase warrants. Each purchase warrant entitles the holder to purchase one share of the Company at an exercise price of \$0.75 per share until January 21, 2023.

MINEHUB TECHNOLOGIES INC.

Notes to Condensed Consolidated Interim Financial Statements

For the three months ended April 30, 2022 and 2021

(Expressed in Canadian dollars)

7. Convertible Debt (continued)

The convertible promissory notes are a compound financial instrument as it includes both a liability and equity components. On initial recognition, the Company determined the fair value of the liability component of each convertible note on the date of issue to be \$478,261. The fair value of the liability was determined by calculating the fair value of the future cash flows of the loan assuming a discount rate of 12%. The equity component of each promissory note was determined to be \$21,739, which comprises of the principal value less the liability component. The fair value of the 150,000 warrants for each promissory note was determined to be \$31,756 using Black-Scholes Option Pricing Model with the following assumptions: Number of warrants: 150,000; Risk free rate of 0.16%; Expected life of 2 years; Expected volatility of 100% and dividend yield on \$Nil. On April 16, 2021, the Company repaid in full the principal and accrued interest for total amount of \$525,000 of one convertible promissory note. On September 1, 2021, the remaining lender converted \$125,000 in principal and \$8,305 in interest in exchange for 266,600 common shares with a fair value of \$138,739. On February 1, 2022, the remaining \$375,000 of the principal was converted into 750,000 common shares with a fair value of \$391,354 (Note 8). The remaining \$48,647 of accrued interest was paid in cash.

Details of movement of the convertible promissory notes are as follows:

	April 30, 2022	January 31, 2022
Balance, beginning	\$ 422,003	\$ 898,681
Amount advanced (repaid)	(48,647)	(525,000)
Loan amounts converted	(358,746)	(138,739)
Equity component of convertible debenture	(16,305)	27,173
Warrant component of convertible debenture	-	-
Accretion of convertible debenture	-	95,676
Interest accrued	1,695	64,212
Balance, ending	\$ -	\$ 422,003

(c) On September 4, 2021, \$20,000 of the principal from the loan described in Note 7(a) was assigned to a new lender with the same terms. On December 8, 2021, the lender converted \$5,000 in principal into 20,000 common shares with a fair value of \$5,000 and 10,000 share purchase warrants (Note 8). On March 18, 2022, the lender converted the remaining \$15,000 in principal into 60,000 common shares with a fair value of \$15,000 and 30,000 share purchase warrants (Note 8).

Details of movement of the convertible promissory note are as follows:

	April 30, 2022	January 31, 2022
Balance, beginning	\$ 15,366	\$ -
Loan amount assigned (Note 7(a))	-	20,000
Loan amount converted	(15,455)	(5,000)
Interest accrued	89	366
Balance, ending	\$ -	\$ 15,366

(d) On September 4, 2021, an additional \$20,000 of the principal from the loan described in Note 7(a) was assigned to a new lender with the same terms.

Details of movement of the convertible promissory note are as follows:

	April 30, 2022	January 31, 2022
Balance, beginning	\$ 20,404	\$ -
Loans amount assigned (Note 7(a))	-	20,000
Interest accrued	244	404
Balance, ending	\$ 20,648	\$ 20,404

MINEHUB TECHNOLOGIES INC.

Notes to Condensed Consolidated Interim Financial Statements

For the three months ended April 30, 2022 and 2021

(Expressed in Canadian dollars)

8. Share capital

Authorized share capital

Unlimited common shares without par value.

Issued share capital

At April 30, 2022, there were 65,013,493 issued and fully paid common shares (January 31, 2022 – 60,603,493).

Share issuance

Three Months Ended April 30, 2022:

On February 2, 2022, the Company issued 750,000 common shares with a fair value of \$391,354 pursuant to the conversion of \$375,000 in principal related to convertible debt outstanding (Note 7(b)).

On March 18, 2022, the Company issued 60,000 common shares and 30,000 share purchase warrants pursuant to the conversion of \$15,000 in principal and \$455 in accrued interest related to convertible debt outstanding (Note 7(c)).

On March 23, 2022, the Company issued 100,000 common shares for gross proceeds of \$64,000 pursuant to the exercise of share purchase warrants. Pursuant to the exercise, a fair value reallocation between reserves and share capital in the amount of \$5,596 was made.

On April 1, 2022, the Company issued 3,500,000 common shares and 1,750,000 share purchase warrants for gross proceeds of \$3,150,000 pursuant to the closing of a non-brokered private placement. Using the residual value method, \$175,000 of the gross proceeds were allocated to the share purchase warrants. The Company incurred cash share issuance costs of \$147,439 and issued 162,500 broker warrants with a fair value of \$54,656, which were valued using the Black-Scholes Option Pricing Model with the following assumptions: Average risk free interest rate of 2.50%; expected life of 2 years; expected volatility of 100% and dividend yield of \$Nil.

Three Months April 30, 2021:

On February 8, 2021, the Company cancelled 500,000 common shares originally issued to a founder of the Company at \$0.001 and on March 15, 2021 the Company cancelled 192,000 common shares issued at \$0.50 for prepaid services.

On March 1, 2021, the Company issued 200,000 common shares of the Company with a fair value of \$100,000 for prepaid services, recorded on the consolidated statement of financial position. During the year ended January 31, 2022, the Company recognized \$45,833 in finance expense based on the services provided during the year.

On March 15, 2021, the Company issued 156,000 common shares of the Company with a fair value of \$78,000 for prepaid services. During the year ended January 31, 2022, the Company recognized \$78,000 in consulting fees based on the services provided during the year.

11. Financial instruments and risks

(a) Fair values

The fair values of cash, receivables, accounts payable, short-term loans and convertible notes approximate their carrying values due to the short-term to maturities of these financial instruments.

(b) Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is not exposed to interest rate risk.

(c) Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's primary exposure to credit risk is in its cash. The risk in cash is managed through the use of a major financial institution which has a high credit quality as determined by rating agencies. Credit risk is assessed as low.

(d) Foreign exchange rate risk

Foreign exchange risk is the risk that the Company's financial instruments will fluctuate in value as a result of movements in foreign exchange rates. The Company is exposed to foreign exchange risk on fluctuations related to cash, receivables, and accounts payable denominated in US dollars and Euros. has significant liabilities denominated in foreign currencies; therefore, foreign exchange risk is assessed as high.

11. Financial instruments and risks (continued)

The following is an analysis of Canadian dollar equivalent of financial assets and liabilities that are denominated in US dollars:

	As at	
	April 30, 2022	January 31, 2022
Cash	\$ -	\$ 17,230
Accounts payable	(3,724)	(40,070)
	\$ (3,724)	\$ (22,840)

The following is an analysis of Canadian dollar equivalent of financial assets and liabilities that are denominated in Euros:

	As at	
	April 30, 2022	January 31, 2022
Cash	\$ 558,397	\$ 398,043
Receivables	72,344	141,975
Accounts payable	(228,039)	(412,717)
	\$ 402,702	\$ 127,301

The following is an analysis of Canadian dollar equivalent of financial assets and liabilities that are denominated in British Pound Sterling:

	As at	
	April 30, 2022	January 31, 2022
Accounts payable	\$ (99,704)	\$ -
	\$ (99,704)	\$ -

Based on the above net exposures, as at April 30, 2022, a 5% change in the US dollar to the Canadian dollar, Euro to the Canadian dollar, and British Pound Sterling to the Canadian dollar would impact the Company's net loss by \$Nil, \$20,000, and \$5,000, respectively (January 31, 2022 - \$1,000, \$6,000 and \$Nil, respectively).

(e) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company requires funds to finance its business development activities. In addition, the Company needs to raise equity financing to carry out its research and development activities. There is no assurance that financing will be available or, if available, that such financings will be on terms acceptable to the Company. Liquidity risk is assessed as high.

12. Capital management

The Company's capital structure consists of share capital. The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. The Company is dependent on external financing to fund its activities. In order to carry out research and development and pay for administrative costs, the Company will spend its existing working capital and raise additional amounts as needed. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. There were no changes in the Company's approach to capital management since inception. The Company is not subject to externally imposed capital requirements.
